CONTENTS

REVIEW PAPER

- | | | | |
|----|--|----------------------------|---------|
| 1. | Heterosis and its utilization in castor : A Review | S.P. Singh and S.S. Gaurav | 101-105 |
|----|--|----------------------------|---------|

RESEARCH PAPERS

- | | | | |
|-----|---|---|---------|
| 2. | Estimation of epistatic genetic components of variance in maize (<i>Zea mays</i> L.) under low moisture stress environment | S.B. Singh, A.K. Singh and S.P. Singh | 106-113 |
| 3. | Genetic diversity among the germplasm for selection of parents for hybridization in chickpea | Amrendra Pratap Singh and Shiva Nath | 114-116 |
| 4. | Stability analysis of pea (<i>Pisum sativum</i> L.) genotypes for yield and its components in different environmental conditions | Sudhir Kumar Dhama, Neeraj Kumar Tyagi and P.B. Singh | 117-122 |
| 5. | Heterosis and inbreeding depression in okra (<i>Abelmoschus esculentus</i> (L.) Moench.) | Bijendra Pal, S.P. Singh, S.S. Gaurav and S.P.S. Sirohi | 123-125 |
| 6. | Genetic variability and character association in rice (<i>Oryza sativa</i> L.) | Parshuram Sial and Prangyan Paramita Das | 126-129 |
| 7. | Character association and component analysis in early segregating generation of mungbean | G. Roopa Lavanya and Anuj Srivastava | 130-133 |
| 8. | Combining ability in chickpea (<i>Cicer arietinum</i> L.) | S.P. Singh | 134-137 |
| 9. | AMMI analysis for stability and location effect on fiber yield of pre-released genotypes of HS mesta (<i>Hibiscus sabdariffa</i> L.) | S.K. Pandey, C.S. Kar, H.K. Sharma and S. Satpathy | 138-143 |
| 10. | Effect of late sowing conditions in wheat (<i>Triticum aestivum</i> L.) | D.K. Bahuguna, S.S. Gaurav and Rajeev Kumar | 144-147 |
| 11. | Germination, growth, yield and yield attributing of mungbean (<i>Vigna radiata</i> L. Wilczek) effected by salinity stress | Rajeev Kumar, Sandeep Kumar, M.P. Singh, Anil Kumar, Hamam Singh and Sajeev Kumar | 148-151 |
| 12. | Character association in chickpea (<i>Cicer arietinum</i> L.) | Mukesh Kumar and S.P. Singh | 152-154 |
| 13. | Studies on genetic variability of yield and related agronomic characters in durum wheat (<i>Triticum durum</i> Desf.) | P.B. Singh, N.K. Tyagi, S.K. Dhama, Rajeev Kumar and D.K. Bahuguna | 155-159 |
| 14. | Genetic variability in indian mustard (<i>Brassica juncea</i> L. Czern and Coss.) | Shiva Nath and S.P. Singh | 160-162 |
| 15. | Estimation of genetic divergence in wheat | Ankur Kumar, S.K. Dhama and P.B. Singh | 163-166 |
| 16. | Combining ability analysis in mungbean (<i>Vigna radiata</i> L. wilczek) | Bateshwar Kumar and S.S. Gaurav | 167-171 |
| 17. | Character association in wheat (<i>Triticum aestivum</i> L.) | Sateesh Chandra Gaur, S.P. Singh and Dharemendra Kumar | 172-175 |
| 18. | Study of plant stem reserve in wheat (<i>Triticum astivum</i> L.) under heat stress condition | D.K. Bahuguna, Rajeev Kumar, S.S. Gaurav and S.P. Singh | 176-179 |

19.	Path coefficient analysis in barley (<i>Hordeum vulgare</i> L.)	Pradeep Singh Kushwah, S.P. Singh and Surendra Singh	180-183
20.	Genetic variability analysis for quantitative traits in chickpea (<i>Cicer arietinum</i> L.)	Jaydev Kumar, Shiva Nath and Amrendra Pratap Singh	184-186

SHORT COMMUNICATIONS

21.	Estimation of genetic variability parameters in indian mustard [<i>Brassica juncea</i> (L.) czern and coss.]	L.K. Sharma and D.P. Saini	187-188
22.	Study on variability, heritability and genetic advance in okra [<i>Abelmoschus esculantus</i> (L.) Monch]	A.K. Singn, J.R. Yadav, K.P. Singh and M. Singh	189-190
23.	Stability analysis for hundred seed weight in green gram (<i>Vigna radiate</i> L. wilczek)	Usha Agrawal and S.P. Singh	191-192
24.	Path coefficient analysis in pigeonpea (<i>Cajanus cajan</i> L.)	S.P. Singh	193-194
25.	Genetic variability, heritability and genetic advance in barley (<i>Hordeum vulgare</i> L.)	Pradeep Singh Kushwah and Surendra Kumar	195-196
